IGOR MORITA SILVA

Software Engineer | Java & Spring Boot Backend | Python & FastAPI

Sorocaba, São Paulo, Brazil | +55 11 99260-3932 | moritaigorr@gmail.com
linkedin.com/in/igor-morita | github.com/moritaigorr

PROFESSIONAL SUMMARY

Software Engineer experienced in developing enterprise applications, REST APIs, and system integrations. Backend development with Java, Spring Boot, Python, and FastAPI, alongside full-stack development using React and TypeScript. Hands-on experience with authentication and authorization, data persistence, automated testing, and analytics dashboards.

PROFESSIONAL EXPERIENCE

Evertec | Software Engineer | Apr 2026 – Present

Customer Support & Ticket Management Platform | Java, Spring Boot, React, TypeScript

- Develop and maintain REST APIs and backend services using Java and Spring Boot, implementing business logic and layered architecture.
- Build ticket lifecycle workflows covering creation, updates, prioritization, status transitions, and access control.
- Integrate chatbot functionality, conversation history, and notifications with React and TypeScript interfaces.
- Enhance authentication, authorization, and permissions, including data validation, exception handling, and automated tests.

Software Quality Analytics Platform | Python, FastAPI, React, TypeScript, Jira/JQL

- Develop REST APIs with Python and FastAPI to retrieve, process, and expose software quality metrics.
- Integrate with the Jira API using JQL queries and data synchronization routines to track work items and operational metrics.
- Build analytics dashboards using React and TypeScript, with dynamic filters, comparative charts, and time-based metrics.
- Handle data cleansing and normalization, endpoint validation, testing, and troubleshooting across backend and frontend integrations.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL

Backend & Security: Spring Boot, Spring Data JPA, Hibernate, Spring Security, JWT, FastAPI, REST APIs

Frontend & Databases: React, HTML5, CSS3, PostgreSQL, Redis, SQLite, relational data modeling

Architecture & Testing: Layered architecture, Clean Architecture, JUnit, Mockito, Selenium, Playwright, unit, integration, and end-to-end (E2E) testing

Tools: Git, Docker, Docker Compose, OpenAPI/Swagger, Jira, JQL

EDUCATION

B.S. in Computer Science (in progress) | Universidade Anhanguera | Expected graduation: 2030

COURSES & LANGUAGES

AWS Cloud Solutions Architect — in progress | English: Fluent
